2. Forecast for the Fiscal Year Ending March 31, 2005 (Apr. 1, 2004-Mar. 31, 2005)

	Operating income	Recurring profit	Net income	
	Millions of yen	Millions of yen	Millions of yen	
Year ending Mar. 31, 2005	367,757	109,200	63,000	

Reference: Projected net income per share for the fiscal year ending Mar. 31, 2005: ¥481.70

Notes: 1. Projected net income per share for the fiscal year ending Mar. 31, 2005 is calculated based on projected average number of shares of 130,610,194.

The above forecasts are based on information currently available to the Company at the time of the release of this report. Actual results could differ materially from projections due to various factors.

Appendix

1. Company Profile

(1) The Promise Group consists of Promise Co., Ltd., 9 consolidated subsidiaries, 3 non-consolidated subsidiaries and 2 affiliated companies (including one accounted for by the equity method of consolidation). The Group's principal business activities and the operations of each subsidiary and affiliated company are described below.

Financing Business

The financing business is Promise Group's principal business. It mainly involves the direct provision of both unsecured and unguaranteed small-lot loans (i.e., the consumer finance business) to general consumers based on simplified credit analysis.

The Group is constructing a system that will enable it to provide comprehensive consumer loan services to a wide range of customers. In Japan, Promise Co., Ltd., Plat Corporation (consolidated subsidiary), Sun Life Co., Ltd., (consolidated subsidiary), and MOBIT CO., LTD. (equity-method affiliate) operate consumer loan businesses.

Overseas, PROMISE (HONG KONG) CO., LTD. (consolidated subsidiary) operates a consumer loan business in Hong Kong.

Promise and MOBIT also provide guarantees on loans made by financial institutions to individuals. PAL Servicer Co., Ltd. (consolidated subsidiary) operates a debt factoring and collection business.

Other Businesses

In addition to the aforementioned businesses, the Promise Group leverages the know-how cultivated in its core consumer loan business to develop finance-related businesses.

PAL Life Co., Ltd. (consolidated subsidiary) operates a real estate business centered on the Pal Building, for the collection of rents for tenant-occupied buildings. PAL Life also provides a variety of services, including travel arrangements and credit verification, to Group companies.

Net Future Co., Ltd. (consolidated subsidiary) provides telemarketing services to Group companies. STC Co., Ltd. (consolidated subsidiary) provides computer system design, operation, and management for Group companies.

Overseas, in Taiwan, PROMISE (TAIWAN) Co., Ltd. (consolidated subsidiary) provides credit appraisal and analysis for loans and purchase of claimable assets services to a local bank.

Notes: 1. System Trinity Co., Ltd. changed its name to STC Co., Ltd., effective July 1, 2004.

2.Due to the increased materiality of the business operations of PROMISE (TAIWAN) Co., Ltd., it has been included in the scope of consolidation commencing with the interim period under review.

The names and business descriptions of other affiliated companies are listed below.

Note: The figure in parentheses under directors represents the number of directors serving in concurrent positions.

2. Management Policies, Business Results and Financial Condition, Business Risks (1) Management Policies

1) Basic Management Policies

To earn the support of a wide customer base and attain sustainable growth, the Promise Group is making its utmost efforts to realize the Promise Vision.

The Promise Vision is a paradigm for the Company to specialize in the consumer finance business and focus on businesses that evolve in tandem with customer needs and the times. The Promise Vision is also a roadmap for evolution from lender-borrower relationships to advisor-client relationships. Through such initiatives, Promise aims to evolve into a personal main bank that can provide financial support and advice to customers on a one-to-one basis.

Despite increasingly fierce inter-industry competition, the Promise Group is striving to generate earnings and strengthen its business foundation by creating a high-quality loan portfolio and offering highly personalized lending services to an even broader customer base. Looking ahead, the Group aims to promote more-efficient use and greater sharing of its corporate resources and assets as well as to raise efficiency in accordance with circumstances. By taking these measures, the Group is striving to improve return on assets (ROA), which it regards as the most important management indicator.

2) Dividend Policy

The Promise Group considers returning a portion of profits to shareholders to be an issue of the highest priority. Looking ahead, the Promise Group intends to further enhance retained earnings and bolster its financial condition. On the other hand, the Group will work to improve earnings by drawing on a solid business foundation formed by high-quality assets and will return profits in accordance with shareholder expectations.

In view of the market environment, the Company's policy regarding the use of retained earnings is to strengthen the Group's business structure through effective investment in such areas as product development, information technology and human resource development to achieve growth in earning power, corporate worth and, by extension, shareholder value.

3) Medium- and Long-Term Business Plan

Working toward the goals of its long-term vision, Promise Group is focused on building its core consumer finance business around a full-line interest rate strategy. The Group is also expanding its peripheral financial businesses and international business, aiming to establish a base for new growth and to strengthen its earnings capability.

Promise's full-line interest rate strategy aims to address the cash needs of a broad base of consumers by offering different brands within the Promise Group, each with a different interest rate range. Currently, the parent company provides consumer loans with an interest rate band of 17.8% to 25.55%, while MOBIT CO., LTD., supplies consumer loans in the 15% and 18% range, and Plat Corporation and Sun Life Co., Ltd., market their consumer loans with a ceiling of 29.2%. By using these three interest rate bands, the Company is targeting customer base expansion.

The business and capital alliance concluded with Sumitomo Mitsui Financial Group, Inc., in June 2004 aims to further develop this full-line interest rate strategy and achieve additional customer base growth. Furthermore, under this alliance, the two partners plan to combine their brand power, customer bases, know-how, and experience to offer a quality consumer finance service that will be viewed as number one in the minds of consumers. In addition, the partners will take steps to develop peripheral financial businesses around loan guarantee and servicing businesses, with the goal of establishing a new earnings base over the medium term.

To achieve growth in its overseas business, Promise is expanding the businesses of PROMISE (HONG KONG) CO., LTD. (consumer finance) and PROMISE (TAIWAN) Co., Ltd. (loan guarantees) while also researching new markets throughout Asia, with a view to developing new earnings bases.

4) Basic Stance on Corporate Governance and Status of Policy Execution

[1] Basic Stance on Corporate Governance

The Promise Group believes that, as a trusted corporate citizen, a corporate governance system is essential to maintaining a relationship of coexistence and coprosperity with society. The Group considers that increasing management efficiency, soundness, and transparency and achieving strict compliance with rules and regulations is extremely important to this goal, and is taking steps to strengthen and expand its related organizations accordingly.

[2] Status of Corporate Governance Organization for Business Decisions and Execution by Management and Audit Function

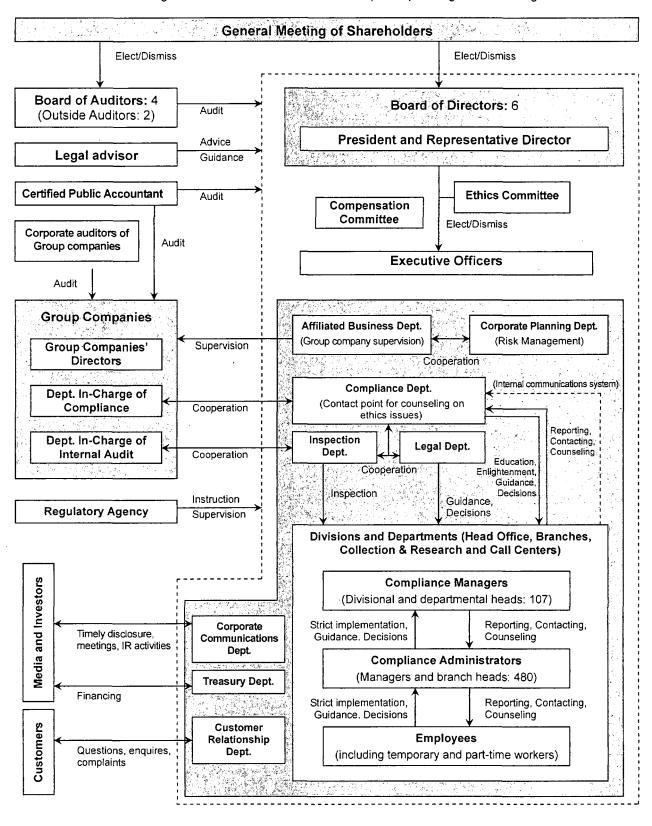

The Company introduced an executive officer system in June 2002. As a result, the Board of Directors has been reduced to six members, enabling the Board to adequately deliberate strategies to deal with pressing issues and to make speedy business decisions.

In its management audit function, Promise employs a corporate auditor system that consists of four auditors, of which two are outside auditors. In addition to monitoring the Board of Directors, the auditors also fulfill an audit function for business execution by sitting in on the Executive Officers and other important meetings.

Authority and responsibility for the overall business activities of the Company are clarified by in-house regulations and other rules. A structure also has been established to ensure sound and appropriate business activities. When necessary, the appropriate action to take on issues can be confirmed with several sections, including the Compliance Department and the Legal Department, and the Inspection Department conducts regular internal inspections. Furthermore, the Company is strengthening the cooperation among the internal auditing departments of individual Group companies, and is taking steps to establish a Groupwide internal auditing system.

Promise's outside auditors have no business relationships with the Company or other conflicts of interest regarding their positions.

The following is a schematic of the Promise Group's corporate governance organization.

[3] Reinforcing the Compliance System

For many years, Promise has worked to infuse awareness of the compliance system Companywide by producing a code of ethics: holding in-house and training sessions and on-the-job training, and introducing other initiatives. However, to further heighten the awareness of individual employees, the Company is now taking steps to increase employees' understanding of compliance, principally through the Compliance Department, which was established in October 2001. These measures include an active educational program and the use of internal publications. Moreover, Promise has implemented measures to develop its compliance system. The Company has set up a Help Line (corporate ethics inquiries and counseling) and appointed 107 compliance managers and 480 compliance administrators throughout its sections and divisions, including sales branches. In addition, Promise has an implementation plan and reviews its progress status every fiscal quarter.

To further strengthen its compliance system, the Company encourages its employees to become qualified in this area by taking the Compliance Officer Certification Examination (Consumer Finance Course), which has been sponsored by the Kinzai Institute for Financial Affairs, Inc., since 2003. Over the past two years, a total of 2,105 employees have passed this examination. Through this and other measures, Promise is working to firmly ingrain the concept of compliance in its corporate culture.

[4] Strengthening and Expanding Disclosure

From the point of view of improving the transparency of management and strengthening its disclosure for shareholders, the Company is actively carrying out IR activities in Japan and abroad, working to bolster and expand its disclosure.

Through press releases, financial information, and other IR tools and its web site (http://cyber.promise.co.jp/), Promise promotes greater understanding of its management strategies and business developments. Top management takes the initiative in this process by personally explaining the Company's activities to others through information meetings and regular contact with securities analysts and investors. At the same time, top management listens carefully to the opinions and wishes of shareholders and investors regarding management, using them as feedback regarding the Company's management practices.

5) Other Important Management Issues

Business and Capital Alliance with Sumitomo Mitsui Financial Group

In September 2004, the Company concluded a business agreement with Sumitomo Mitsui Financial Group, Inc.

Under the agreement, Promise will install its *Chosoku* loan processing machines in the branches of Sumitomo Mitsui Banking Corporation. The Company and the Bank will establish a joint venture through which they will jointly develop and offer consumer loans based on a new Cascade Scheme. The new scheme seeks to develop new sales channels based mainly on the sale of loan guarantees for the new consumer loan product and to further expand business tie-ups with other members of the partners' corporate groups.

In July 2004, the Company made a third-party allotment of shares to Sumitomo Mitsui Banking Corporation and sold said bank treasury shares. The transfer of shares was made to promote the mutual sharing of the profits and to solidify the strategic alliance.

(2) Business Results and Financial Condition

1) Overview of Interim Period Ended September 30, 2004 and Business Results

During the interim period under review, the Japanese economy remained in a mild recovery phase. Reflecting this trend, exports expanded against the backdrop of the recovery in the global economy, domestic private-sector capital investment grew and corporate performances improved. In contrast, the recovery in employment and wage conditions continued to be delayed. Although the unemployment rate declined slightly, it remained at a high level and actual wage levels moved downward.

Under these conditions, the Promise Group gave top priority to minimizing nonperforming loans and increasing customer retention. As part of these efforts, management has introduced new policies, bolstered mechanisms for credit asset management and aggressively cut costs.

Results for the interim period ended September 30, 2004 by business are provided below.

[1] Financing Business

In the core consumer finance business, although there were encouraging signs in the market, there were also many uncertainties about its direction. As the result of the use of stricter standards for

approving loans and the impact of the sale of GC Co., Ltd., in the previous fiscal year, the balance of loans outstanding fell slightly.

Consequently, in the interim period ended September 30, 2004, the consumer finance business recorded financial revenues of ¥180,954 million, down ¥13,983 million, or 7.2%, from the previous interim period.

The major policies undertaken in the interim period ended September 30, 2004 are outlined below.

(Strengthening organizational structure)

In response to the ever-changing business environment, the Promise Group flexibly reviews its organizational structure to ensure that its organization demonstrates its maximum capabilities from the point of view of efficiency and results.

In August 2004, Promise integrated its Marketing Planning, Marketing Development and Internet Business Development departments into the new Marketing Planning Department to strengthen the planning and development of its Marketing Division. The Company also spun off the advertising and promotion function into the new, independent Advertising Department. Furthermore, in conjunction with the strategic alliance with Sumitomo Mitsui Financial Group, Promise set up the Strategic Alliance Project responsible for planning and implementation of cooperative activities. Each project team is formed using a horizontal organizational structure that combines members from different departments, with the goal of quickly establishing businesses covered by the agreement.

(Improving loan portfolio quality)

The Promise Group addresses its major issues of minimizing nonperforming loans and increasing customer retention through detailed responses to the needs of each customer based on thorough communication.

Promise has an automated credit provision system based on statistical analysis. The system is optimized by revising it in response to changes in the business environment, a process that has highly refined its precision. In addition, the Company has introduced a "Navigation System" that further refines the approval process by recording transaction details and individual conditions and other qualitative information into a database and assigning such details greater weight than previously in the credit approval process.

Promise has taken a variety of steps to enable more effective use of this "Navigation System." It has established a loan management system whereby branches manage their new loans comprehensively from inception to collection and revised its Loan Collection Guidelines, strict self-regulatory standards aimed at achieving legal compliance. Besides making progress with the implementation of these systems and rules, the Company is also focusing its attention on improving the customer counseling abilities of employees through various training courses and on-the-job training and on achieving their thorough compliance with rules and regulations.

In addition, Promise's loan management know-how is also being put to use by Plat Corporation and Sun Life Co., Ltd. By revising its loan management system as needed, the Company is striving to strengthen its lending system and improve the quality of its loan portfolio.

(Expanding product line and business channel network)

Promise is making efforts to expand its services using IT and business alliances for the purpose of acquiring new customers and increasing the level of satisfaction of existing ones.

Among products, the Company is enlarging its unsecured loan product line principally around free and expanded services for its cashing services. Promise also aims to develop products and systems that meet customers' diverse needs, such as issuing a membership card with cashing privileges based on business tie-ups with other companies or commercial organizations or providing consumer loans through business tie-ups.

The Company has continued to extend its payment/withdrawal channel, forming alliances with financial institutions and convenience stores. At the end of September 2004, Promise had a total of 120,781 locations (105,987 ATMs and CDs, 14,794 convenience stores) in its payment/withdrawal channel, including its own ATMs and those of its 429 alliance partners, making it the industry leader in terms of network scale. The Company has also worked to provide customers with an environment where it is "easy to borrow, easy to repay" no matter what the time or place, making repayment using its Internet Repayment Service, an Internet banking-based instant repayment system, free of commission charges and expanding the number of financial institutions that can be used to withdraw or repay funds.

In response to customers demand for shorter loan approval times, the Company has been progressing with the installation of *Chosoku* loan processing machines. *Chosoku* are compact,

low-cost terminals that require only 5-10 minutes to process new applications, conduct provisional credit analyses, and issue temporary cards. At the end of September 2004, a total of 339 of these terminals had been installed, principally in commercial areas in major cities and in suburban shopping centers. At staffed branches and other existing channels, the Company strove to strengthen sales capabilities and achieve low-cost operations by reviewing operations from the point of view of customer processing flow and changing branch types or combining branches.

(Acquiring new profit bases)

The Company is developing a loan guarantee business that provides guarantees for the unsecured consumer loans of other financial institutions. By leveraging its lending know-how cultivated over many years in the consumer finance industry, Promise is aiming to establish a new profit base in this field. In June 2004, the Company formed a business agreement with The Gifu Bank, Ltd., bringing the number of banks with which Promise has a loan guarantee agreement to three. The resulting balance of loan guarantees is firm, totaling ¥3,826 million at the end of September 2004.

From the point of view of efficient use of business resources, the Company is opening up its own ATM network throughout Japan to other companies. At the end of September 2004, a total of 29 companies had access to Promise's ATM network: 3 bank affiliated credit card companies, 9 sales finance (*shinpan*) companies and 17 consumer finance companies, of which 3 were Promise Group companies.

With the consumer finance business as its core business, the Company plans to utilize its know-how in this area to establish new profit bases in other finance and peripheral financial businesses to expand its business base and strengthen its earning power.

[2] Other Businesses

In other businesses, such peripheral financial business as the telemarketing business of Net Future Co., Ltd., and the system development for financial institutions operated by STC Co., Ltd. (System Trinity Co., Ltd. changed its name to STC Co, Ltd., in July 2004), the Company is pursuing the development of new business outside the Group, targeting the expansion of its earning base.

Nevertheless, other businesses revenues declined during the interim period under review against a backdrop of intensified competition in the Japanese market and the June 2004 sale of the installment credit assets of Liang Jing Co., Ltd., an automobile installment sales company in Taiwan, to the International Bank of Taipei as part of a strategy to concentrate Group business resources. Other operating revenues for the interim period declined ¥1,435 million, or 20.3%, to ¥5,651 million.

As a result of the aforementioned activities, in the interim period ended September 30, 2004, consolidated operating income declined ¥15,418 million, or 7.6%, from the same period in the previous fiscal year, to ¥186,605 million. The slight decrease in the balance of loans outstanding in the core consumer finance business was the principal factor in the decline. Despite the fall in operating income, cost reduction benefits realized from structural reforms combined with lower credit losses recorded against the backdrop of a decrease in personal bankruptcy petitions helped recurring profit increase ¥23,736 million, or 53.8%, from the interim period in the previous fiscal year, to ¥67,877 million, while interim net income rose ¥13,336 million, or 49.9%, to ¥40,080 million.

2) Financial Position

Assets, liabilities, and shareholders' equity at the end of the interim period ended September 30, 2004, are shown below.

Total assets at the end of the interim period under review declined ¥8,088 million from the end of the previous fiscal year as previously mentioned. The decease is mainly attributable to a ¥6,516 million decline in outstanding unsecured loans, the Promise Group's core business, and a ¥6,174 million decrease in notes and accounts receivable in conjunction with the sale of the installment credit assets of Liang Jing Co., Ltd.

Total liabilities declined ¥136,454 million, reflecting mainly a ¥88,033 million decline in borrowing and a ¥20,000 million drop in corporate bonds outstanding.

Shareholders' equity rose ¥128,365 million from the end of the previous fiscal year. As a result of the third-party allotment of 8,900,000 shares and sale of 4,330,000 treasury shares to Sumitomo Mitsui

Banking Corporation, common stock increased ¥31,684 million and additional paid-in capital expanded ¥46,045 million. There was a ¥17,436 million decrease in treasury stock, which is a deductible item, and retained earnings advanced ¥33,833 million due to the increase in net income.

Consolidated cash flows for the interim period ended September 30, 2004 are shown as follows: Net cash provided by operating activities totaled ¥37,098 million; net cash provided by investing activities amounted to ¥10,695 million; and net cash used in financing activities amounted to ¥21,431 million. As a result, at the end of the interim period under review, cash and cash equivalents were up ¥26,678 million, or 26.4%, from the end of the previous fiscal year, to ¥127,789 million.

(Net cash provided by operating activities)

Net cash provided by operating activities totaled ¥37,098 million, an improvement of ¥7,752 million from the same period in the previous fiscal year. The increase was due mainly to a larger decrease in consumer loans receivable and a decrease in income taxes paid.

(Net cash provided by investing activities)

Net cash provided by investing activities fell ¥58,624 million year on year, to ¥10,695 million. Although there were cash inflows from proceeds from sales or redemption of investments in securities, the sale of consolidated subsidiary GC Co., Ltd. in the previous fiscal year and proceeds from collection of loans receivable declined.

(Net cash used in financing activities)

Net cash used in financing activities amounted to ¥21,431 million, representing an improvement of ¥25,208 million from the same period in the previous fiscal year. Despite greater constraints on fund raising, through borrowings and corporate bond issuance, compared with the previous fiscal year, net cash used in financing activities declined because of the proceeds from the third-party allotment of stock and the sale of treasury stock to Sumitomo Mitsui Banking Corporation.

3) Outlook for Fiscal Year Ending March 31, 2005

The Japanese economy is expected to continue its mild recovery supported by growth in exports and expansion in domestic private-sector demand. Despite this improvement, the tardiness in the recovery in the employment environment and personal incomes and the still high level of personal bankruptcy petitions suggest a continued difficult business climate.

Under these circumstances, the Company will continue to give priority to the issues of minimizing nonperforming loans and increasing customer retention to secure a stable flow of earnings and achieve corporate growth.

To those ends, the Promise Group continues to emphasize improving loan quality and deploying a full-line interest rate strategy that is aimed at meeting the funding needs of a diverse consumer base. In doing so, the Group aims to diversify its risk exposure while increasing its loan balance. The Group is also expending ongoing efforts to expand peripheral financial businesses and its overseas financial business.

To realize the concept of "Promise is number one in the minds of customers," the Company will continue to pursue structural reforms, establish a corporate infrastructure and expand its services for customers. In addition, Promise will take steps to ensure an early materialization of operations under the strategic alliance with Sumitomo Mitsui Financial Group.

For the fiscal year ending March 31, 2005, the Company is forecasting operating income of \$367,757 million, a decline of 5.9% from the previous fiscal year. Recurring profit is expected to rise 21.5% to \$109,200 million, while net income is projected to expand 51.5% to \$63,000 million.

(3) Business Risk

The following is a discussion of the major factors thought to have an impact on the business, performance, and financial conditions of the Promise Group. Matters that may not necessarily be equivalent to risk but are deemed important for investment decisions and a better understanding of the Group's business activities have also been included from the point of view of providing greater disclosure for investors.

Cognizant of the potential risks described below, the Promise Group takes steps to prevent these risks from materializing and to respond promptly when problems arise. However, it should be noted that the risks described below do not represent complete coverage of the risks faced by the Group. Forward-looking statements contained in the following text are based upon assessments made as of September 30, 2004.

1) Regulatory risk regarding restrictions on interest rates on loans

The maximum interest rate under the Law Concerning Control on Acceptance of Capital Contributions, Deposits and Interest (hereinafter termed the "Capital Subscription Law") is 29.2%. All of the Group's consumer finance companies in Japan lend money at interest rates below this ceiling. However, Article 12, Paragraph 2 of the supplementary provisions of the Partial Revision Law regarding the Money Lending Business Control and Regulation Law and Law Concerning Control on Acceptance of Capital Contributions, Deposits and Interest (hereinafter termed the "Money-Lending and Capital Subscription Partial Revision Law"), which was announced on August 1, 2003, states that the ceiling on interest rates stipulated in Article 5, Paragraph 2 of the Capital Subscription Law shall be reviewed as necessary about three years after the enforcement of the Money Lending and Capital Subscription Partial Revision Law. If the maximum interest rate is revised to a figure lower than the current one, this may have a negative impact on the business and performance of the Promise Group.

A portion of this maximum interest rate is in excess of the maximum interest rate chargeable stipulated in Article 1, Paragraph 1 of the Interest Rate Restriction Law (allowed annual rates on loans with principal of less than ¥1,000,000, 20%; with principal of ¥1,000,000 or more but less than ¥1,000,000, 18%; with principal of ¥1,000,000 or more, 15%). Under Article 1, Paragraph 1 of the Interest Rate Restriction Law, interest rate agreements on consumer loans made for commercial purposes for this portion are invalid. However, according to Paragraph 2 of the same article, if the debtor voluntarily pays this excessive portion, the debtor is not entitled to request a refund.

Moreover, according to Article 43 of the Money Lending Business Control and Regulation Law (hereinafter termed the "Regulatory Law"), if the debtor complies with all the requirements of voluntarily paying the excessive portion as interest, receives the written documents stipulated in Article 17 of the Regulatory Law at the time of concluding the loan agreement and receives a receipt as stipulated in Article 18 of the same law immediately on payment, the transaction will be deemed a valid repayment of interest on the debt regardless of the provisions of Article 1, Paragraph 1 of the Interest Rate Restriction Law.

Nevertheless, on June 1, 2000, the Financial Services Agency revised its business guidelines for the industry, placing a stricter obligation on operators to supply borrowers with proper documentation. As a result, the number of suits by borrowers demanding reimbursement of the said excessive portion due to the lack of proper documentation has increased annually, and several decisions ruling against the application of Article 43 of the Regulatory Law have been handed down by the legal system. In the future, should the number of such suits increase and the total reimbursement amount rise or further revisions be made in the laws and regulations, they could have a negative influence on the performance of the Promise Group.

2) Regulatory risk regarding business restrictions under the Regulatory Law

The consumer finance companies of the Promise Group have been registered as operators as stipulated in Article 3 of the Regulatory Law and are governed by the various business regulations of that law (prohibition of excessive lending, disclosure of loan conditions, publicizing of loan conditions, prohibition of exaggerated advertising, exchange of written documentation, exchange of receipts, booking of loans, restrictions on obtaining a blank power of attorney, restrictions on loan collection activities, return of loan agreement, disclosure of official registration details, restrictions on resale of loans).

As the regulator of the consumer finance industry, the Financial Services Agency has the power to take administrative measures, including suspension of the operations or a portion of the operations of an operator that has violated the laws or regulations and cancellation of the operator's registration.

The moneylenders associations of each prefecture and the Federation of Moneylenders Association of Japan also have self-regulatory rules to ensure sound lending, loan collection and advertising. The companies of the Promise Group comply with these rules.

Despite the Group's efforts to comply with regulations, in the event that some violation triggered administrative measures by the regulator or business became more restricted as a result of a change due to a revision of laws, the performance of the Promise Group or future business development could be affected.

3) Risk regarding multiple indebtedness problem and loans made to consumers

In recent years, against the backdrop of the economic conditions in Japan and the establishment of a legal framework for consumer debt relief (passing of the Designated Mediator Law and the individuals for Civil Rehabilitation laws and the revision of the Judicial Scrivener Law), increases in multiple indebtedness among individuals (including customers of the Promise Group) and in the number of individuals seeking legal protection from creditors under personal bankruptcy laws have become social issues.

In response to these issues, in January 1997, the consumer finance industry formed the Liaison Group of Consumer Finance Companies to carry out activities to enlighten and educate consumers and to financially support various related counseling services.

The Promise Group also uses data from consumer credit associations and its own credit appraisal system to evaluate the loan repayment capability of customers and continues to regularly revise credit limits after the loan has been made. Based on this system, the Group avoids excessive credit risk and seeks to prevent an increase in multiple indebtedness among individuals and curtail the occurrence of uncollectible loans. Furthermore, the Group provides for expected future credit losses by booking a provision for uncollectible loans as necessary in view of calculations based on such details as the historical default rate and the balance of loans outstanding.

In spite of these precautions, should economic conditions suddenly deteriorate or the quality of loans suddenly worsen due to changes in the legal system or the numbers of people applying for bankruptcy or legal arbitration increase, loan losses would increase and could impact on the performance of the Promise Group.

4) Risk regarding the handling of personal information and the information privacy law Because the core business of the Promise Group is consumer finance in which the Group provides loans based on the credit standing of customers, the Group is a member of personal credit information bureaus and can access bureau databases.

The Promise Group treats this personal data as highly confidential information and takes appropriate steps to protect it and ensure its proper use. Access to the databases of personal credit information bureaus is limited to registered employees and access logs and other measures are used to prevent abuse. Moreover, the Group carries out thorough compliance training, and takes other preemptive steps to prevent the leakage of information from within the Group.

Nevertheless, if for some reason a problem were to arise because of the leakage of customer information, the repercussions could adversely affect the Promise Group's performance and business development.

On May 30, 2003, the fundamental sections of the law protecting the privacy of personal information were announced and brought into force. Under this law, businesses handling personal information (major companies of the Promise Group fall into this category) are obliged to make certain reports to the authority if deemed necessary. For violations of this obligation, the minister of the main authority is empowered to advise or command that necessary measures be taken if they are recognized to be in the best interests of the individuals. At this point, it is difficult to determine what impact the information privacy law will have on business because individual guidelines have not been issued. However, along with the full enforcement of the law on April 1, 2005, individual guidelines will be issued. Resulting business restrictions could have a negative effect on the performance of the Promise Group.

5) Risk regarding the liberalization of regulations

Recently, the Ministry of Finance and other government organizations have adopted measures to deregulate the financial system and to promote competition. And various plans for further deregulation of financial services companies are in progress. The effects have been seen even in the consumer finance industry, where joint ventures have been formed with banks and foreign financial services companies and companies from other industries have entered the market.

Because the previously mentioned laws have placed greater restrictions on moneylenders, it is difficult to foresee more companies from other industries entering the consumer finance market at this time. However, should these regulations be liberalized, and the number of new market entrants increase or a major capital tie-up or merger or acquisition be concluded by a company with abundant capital resources, it could create a new competitive playing field within the industry that might have a negative impact on the performance of the Promise Group.

6) Fund raising and interest rates on financing

Since the enforcement of the Nonbank Bond Issuing Law in May 1999, the Promise Group has actively issued bonds. Moreover, the Group has sought to diversify its funding sources with borrowings from financial institutions, fixed interest rate long-term bonds and syndicated loans. To minimize interest rate risk, the Group hedges its exposure using interest rate caps and uses interest rate swaps while also obtaining commitment line agreements to secure alternate sources of funds in preparation for sudden changes in the financing environment. Through these and other measures, the Group aims to achieve stable fund procurement at low cost.

The Promise Group does not anticipate any difficulties in raising funds under current conditions. However, should interest rates rise or should the financing environment deteriorate markedly beyond currently foreseen levels, systematic fund raising might become difficult and adversely influence Group performance.

7) Potential of computer system failure

As a result of progressive use of IT systems along with the expansion of its consumer finance business, the Promise Group has come to depend much more on its computer systems and networks. For that reason, the Group has implemented measures to deal with system problems, such as strengthening security, creating a backup system for data and adding and updating hardware to cope with greater volumes of data and higher access frequency. Regardless of these measures, if human error or a natural disaster were to cause a problem with the Group's computer systems, it could not only directly damage the operations of the Promise Group but also result in a loss in confidence in the services being offered by the Promise Group.

8) Business and capital alliance with Sumitomo Mitsui Financial Group, Inc.

As previously mentioned, the Company has formed a business and capital alliance with Sumitomo Mitsui Financial Group. In the future, the Company will consider each of the members of Sumitomo Mitsui Financial Group as a strategic partner in the consumer finance business, combining the brand power and know-how developed by both sides to provide top-class products and services to the customers of both partners. However, if there were a change in the Banking Law or other related laws or if Sumitomo Mitsui Banking Corporation were to acquire more than a certain proportion of the outstanding shares of Promise Co., Ltd., it is possible that operations might be restricted to the scope of the businesses of the Company or its subsidiaries.

9) Group strategy and performance trends

The business climate of the Promise Group includes rising credit losses due to the deteriorating quality of the loan portfolio, falling numbers of customers due to declining spending sentiment among consumers, increasing competition from market entrants from other fields and growing competition with other companies in the market. Consequently, each of the companies of the Group faces a difficult operating environment.

In response, the Promise Group has initiated a variety of measures, pursuing a Group strategy centered on the full-line interest rate strategy. In the event that the Promise Group is not able to achieve results as planned under the Group strategy because of a change in the direction of the economy or in the competitive conditions, such a situation could have a negative impact on the performance of the Promise Group.

(5) Material Items in Basis of Presentation of Interim Consolidated Financial Statements

1) Scope of Consolidation

[1] Number of consolidated subsidiaries: 9

Company name

[Domestic]:

Plat Corporation Sun Life Co., Ltd. PAL Servicer Co., Ltd. PAL Life Co., Ltd. Net Future Co., Ltd. STC Co., Ltd. (Note) Total of 6 companies

Note: System Trinity Co., Ltd. changed its name to STC Co., Ltd., effective July 1, 2004.

[Overseas]:

PROMISE (HONG KONG) CO., LTD.

Liang Jing Co., Ltd.

PROMISE (TAIWAN) Co., Ltd.

Total of 3 companies

Due to the increased materiality of the business operations of PROMISE (TAIWAN) Co., Ltd., it has been included in the scope of consolidation commencing with the interim period under review.

[2] Major non-consolidated subsidiaries

PROMISE (EUROPE) S.A. and other 2 subsidiaries

(Reason for exclusion from consolidation)

The remaining non-consolidated subsidiaries at September 30, 2004 were not consolidated because their aggregate amounts of assets, operating income, net income (amount corresponding with equity), and retained earnings (amount corresponding with equity) were not material to the consolidated results of operations.

2) Application of the Equity Method

[1] Number of companies to which equity method has been applied: 1

Company name: MOBIT CO., LTD.

- [2] The equity method was not applied to non-consolidated subsidiary PROMISE (EUROPE) S.A. and affiliated company NANJING SHENZHOU SEED INDUSTRY CO., LTD. because their net income (amount corresponding with equity) and retained earnings (amount corresponding with equity) were not material to consolidated net income and retained earnings, respectively, and have no overall material influence on the Company's operations.
- [3] The date of application of the equity method coincides with the last day of the interim period.

3) Interim Period-End for Consolidated Subsidiaries

Consolidated subsidiaries whose interim period-end differs from the end of the consolidated interim period-end are as follows:

Company Name	Interim Period-End
PROMISE (HONG KONG) CO., LTD.	June 30
Liang Jing Co., Ltd.	June 30
PROMISE (TAIWAN) Co., Ltd.	June 30

For the above consolidated subsidiaries, financial statements compiled as of their respective interim period-ends are used to tabulate consolidated results. However, material events that occur between that time and the end of the consolidated fiscal year-end are necessarily reflected in the consolidated financial statements.

4) Summary of Significant Accounting Policies

[1] Standards and Methods for Valuing Material Assets

a. Investment securities

Other securities

- 1. Marketable Other securities are stated at market value as of the interim period-end. Adjustments to market value are recorded as an increase or decrease in shareholders' equity. Costs of their sales are determined by the moving average method.
- 2. Other securities that are not marketable are stated at cost, with cost being determined by the moving average method.

b. Derivatives

Derivatives are stated at market value.

[2] Method of Depreciation of Material Depreciable Assets

a. Property and equipment

Property and equipment are principally depreciated using the declining-balance method.

However, buildings (excluding associated equipment) acquired on or after April 1, 1998 are depreciated using the straight-line method over the estimated useful lives of the assets.

The main useful lives are as follows:

Buildings and structures

: 3-50 years

Equipment and fixtures and vehicles: 2-20 years

b. Intangible fixed assets

Intangible fixed assets are depreciated using the straight-line method.

However, amortization of computer software (for internal use) is principally calculated using the straight-line method over five years, the estimated useful life.

c. Long-term prepaid expenses

Long-term prepaid expenses are amortized on an average basis.

[3] Accounting Basis for Reserves

a. Allowance for credit losses

The allowance for credit losses is provisioned at the actual loss rate.

Additional provisions are made in amounts deemed necessary to cover possible non-collectible accounts in accordance with the state of consumer loans outstanding.

In addition, overseas subsidiaries provision the reserve in amounts based on the probability of debt recovery.

b. Reserve for bonuses

Reserve for bonuses to employees on the payroll at the end of the interim period is provisioned based on the expected payment amount.

c. Accruals for debt guarantees

Accruals for debt guarantees are provided to cover possible future losses on guarantees at the end of the interim period.

d. Accrued severance indemnities

The amount of accrued severance indemnities for employees is provided based on the amount of the projected benefit obligation less the fair value of the pension plan assets. The accrued severance indemnity cost for the interim period is charged to income as incurred.

The accrued severance indemnities for executive officers are determined separately based on the required payment amount at the end of the interim period as stipulated in the Company's bylaws.

e. Allowance for retirement benefits for directors and auditors

The past service cost for directors is determined based on the required payment amount at the end of the interim period as stipulated in the Company's bylaws.

f. Accruals for loss quarantees

The Company has made a provision for estimated loss to cover non-collectible amounts of claims for indemnities due to the sales of investments in subsidiaries.

[4] Foreign Currency Translations (assets and liabilities denominated in major foreign currencies)

Foreign-currency denominated receivables and payables are translated into Japanese yen at the spot rate prevailing on the respective balance sheet dates. Translation differences are treated as gains and losses.

Assets and liabilities of overseas companies are translated into Japanese yen at the prevailing spot rate on the respective balance sheet dates. Income and expenses are translated at the average rate for the period. Translation differences are included in Foreign currency translation adjustments in Shareholders' equity on the balance sheet.

[5] Lease Transactions

Where financing leases do not transfer ownership of the leased property to the lessee during the term of the lease, the leased property is not capitalized and the lease expenses are charged to income in the period they are incurred.

[6] Hedging

a. Hedge accounting method

The Company uses deferral hedge accounting.

Exceptional accounting is used to account for interest rate swap agreements and interest rate cap agreements that meet specified conditions.

b. Hedging instruments and hedging targets

Hedging instruments: Interest rate cap agreements and interest rate swap agreements
Hedging targets: Funds procured at variable interest rates, for which a rise in market

interest rates will contribute to an increase in fund procurement costs

(interest payment).

c. Hedging policy

The basic hedging policy is to minimize the impact of sharp movements in interest rates on procured funds.

d. Determining hedging effectiveness

The hedging instruments are measured for effectiveness by correlation with respect to the difference between interest rate indicators upon the instruments and positions being hedged.

e. Risk management system

The Company manages market risk in accordance with methods for managing the various risks arising from financial activities as set forth in Guidelines for Managing Risk by Type, which is contained in Financial Regulation.

Guidelines for Managing Risk by Type is revised in a timely manner in response to changes in the risk environment, whereupon such revisions shall be reported to the Board of Directors.

Also, consolidated subsidiaries conduct hedging transactions with prior approval from the Company.

[7] Other Material Items Related to Basis of Presentation of Interim Consolidated Financial Statements

a. Accounting for revenues and expenses

Interest on consumer loans

Interest on consumer loans is recognized on an accrual basis.

For the Company and domestic subsidiaries, accrued interest on loans is determined using the lower of the interest rate specified in the Interest Rate Restriction Law or the contracted interest rate. For overseas subsidiaries, accrued interest is determined using the contracted interest rate.

b. Accounting for consumption taxes

National consumption taxes and regional consumption taxes are accounted for at the Company using the net-of-tax method, with the same method principally applied at subsidiaries.

However, consumption taxes not subject to fixed asset related exclusion are recorded in Other in Investments and advances on the relevant interim balance sheets and are amortized over five years.

5) Funds Included on Interim Consolidated Statement of Cash Flows

Funds (cash and cash equivalents) included on the interim consolidated statement of cash flows include cash on hand, deposits readily convertible to cash, and instruments easily converted to cash. Also included are short-term investments that mature within three months and that carry little risk of price fluctuation.

6) Changes in Accounting Practices

Accounting standards for impairment of fixed assets

As it has become possible for companies to implement accounting standards for impairment of fixed assets (Opinion on the Establishment of Accounting Standards for Impairment of Fixed Assets (Business Accounting Council, August 9, 2002)) and Guidance on Accounting Standards for Impairment of Fixed Assets (Accounting Standards Board of Japan, Practical Guidance No. 6, October 31, 2003) for financial statements relating to the fiscal year ended March 31, 2004, the Company has adopted said accounting standards and guidance commencing with the interim period of the fiscal year ending March 31, 2005. Application of these standards resulted in a reduction of ¥441 million in income before income taxes compared with the previous accounting practices.

The cumulative impairment loss after revision has been directly charged to individual asset accounts in accordance with regulations for presenting the interim consolidated financial statements.

7) Additional Information

The Local Taxes Amendment Law (2003 Law No. 9) was promulgated on March 31, 2003, resulting in the introduction of a pro-forma standard taxation system for fiscal years commencing on or after April 1, 2004. In accordance with the introduction of this system, the added value and asset portions of enterprise tax are recorded in Other operating expenses as given in Practical Solution on Presentation for Corporate Size Based Aspect of Corporate Income Tax on Income Statement (Accounting Standards Board of Japan, Practical Guidance No. 12, February 13, 2004) starting with the interim period under review.

As a result of these changes, other operating expenses increased ¥419 million, while operating profit, recurring profit and income before income taxes decreased ¥419 million.

8. Revolving credit facility Within lending commitment line contracts for consumer loans, ¥1,558,619 million was in revolving credit facility agreements (automatic renewal through basic revolving loan contract). These are agreements whereby companies can loan repeatedly up to a predetermined amount to a customer on request, if the customer has met the terms and conditions of the contract. The total balance of revolving credit facilities unused was ¥383,865 million (including ¥275 million in secured revolving credit facilities). This balance includes credit facilities of customers without any loan balance, except for those making no payments or receipt for two years or more.	8. Revolving credit facility Within lending commitment line contracts for consumer loans, ¥1,521,731 million was in revolving credit facility agreements (automatic renewal through basic revolving loan contract). These are agreements whereby companies can loan repeatedly up to a predetermined amount to a customer on request, if the customer has met the terms and conditions of the contract. The total balance of revolving credit facilities unused was ¥377,929 million (including ¥227 million in secured revolving credit facilities). This balance includes credit facilities of customers without any loan balance, except for those making no payments or receipt for two years or more.	8. Revolving credit facility Within lending commitment line contracts for consumer loans, ¥1,528,307 million was in revolving credit facility agreements (automatic renewal through basic revolving loan contract). These are agreements whereby companies can loan repeatedly up to a predetermined amount to a customer on request, if the customer has met the terms and conditions of the contract. The total balance of revolving credit facilities unused was ¥378,477 million (including ¥252 million in secured revolving credit facilities). This balance includes credit facilities of customers without any loan balance, except for those making no payments or receipt for two years or more.

FY 2004 interim period (Sept. 30, 2003)

There are also contracts whose term ends without the lending option being executed, and thus do not necessarily have an impact on future cash flows of the Company.

For changes in the credit status of customers or other credible reasons, each contract contains a provision in which the Company can deny financing for loan applications and upwardly or downwardly revise the maximum credit line.

Even after the completion of contracts, the Company periodically revises contract details and adopts measures to ensure credit safely.

9. Loan collateral

A repurchase agreement of ¥87,261 million is included in Short-term loans.

Consequently, marketable securities are accepted as collateral from the seller of repurchased marketable securities.

The interim market value for marketable securities received is as follows: (Millions of yer

10. The unutilized balance from overdraft contracts on current accounts (including contracts based on overdraft contracts on current accounts) and contracts for the commitment line of loans are as follows: (Overdraft contracts on current

accounts) (Millions of yen)
Total contracts 12,405
Contracts exercised 10,013
Difference 2,391

(Contracts for the commitment line of loans) (Millions of yen)

Total contracts 259,042

Contracts exercised 9,639

Difference 249,403

FY 2004 (Mar. 31, 2004)

There are also contracts whose term ends without the lending option being executed, and thus do not necessarily have an impact on future cash flows of the Company.

For changes in the credit status of customers or other credible reasons, each contract contains a provision in which the Company can deny financing for loan applications and upwardly or downwardly revise the maximum credit line.

Even after the completion of contracts, the Company periodically revises contract details and adopts measures to ensure credit safely.

9. Loan collateral

A repurchase agreement of ¥ 48,964 million is included in Short-term loans.

Consequently, marketable securities are accepted as collateral from the seller of repurchased marketable securities.

The market value for marketable securities received is as follows: (Millions of year

То	tal	34,607	(477)	(481)	54,713	(875)	(875)	41,562	(667)	(667)

(1) Details of Transactions

Promise engages in interest rate cap and interest rate swap transactions.

(2) Policy regarding Transactions

The Company does not independently engage in derivative transactions for trading to achieve short-term buying and selling gains or in transactions for speculative purposes.

(3) Purpose of Transactions

Regarding variable-rate interest payments on procured funds, to avoid the impact of a rise in future market interest rates on fund procurement costs (interest expenses), the Company establishes fixed ceilings using interest rate caps to hedge rises in interest expenses. In addition, the Company uses interest rate swaps to fix its cost of funds procured at variable interest rates.

(4) Transaction Risks

Derivative transactions involve market risk and credit risk. However, market risk resulting from fluctuations in market interest rates is offset by risk resulting from fluctuations in market interest rates on funds procured (liabilities) at variable interest rates. Moreover, the Company believes there is no significant credit risk since it engages in transactions only with large financial institutions.

(5) Risk Management regarding Transactions

Criteria for determining the need for risk hedging as well as specific hedging methods for each type of risk accompanying the execution of finance activities are stipulated by the Company's Finance Regulations. The Treasury Department executes derivatives transactions in accordance with these regulations.

Each derivatives contract is entered into only after obtaining a decision as stipulated by the Work Assignment Regulations. The details of the contract and the aforementioned decision are checked and confirmed by the General Affairs Department, and after a seal is affixed the contract can be executed.

Prior approval from Promise is required for consolidated subsidiaries to execute derivatives transactions. Promise will base its decision on whether to approve or disapprove the derivatives transactions in accordance with standards determined by the Company.

A director in charge will report periodically to the Board of Directors about the management of derivatives transactions, including those of consolidated subsidiaries. The Inspection Department will check the details of the derivatives contracts that have been inspected by the Treasury Department.

(6) Supplementary Explanation on Contract Amounts, Fair Value, and Valuation Losses on Derivatives Transactions

Notional amounts for derivatives transactions listed in Contract amounts, fair value and valuation losses on derivatives transactions are the notional amounts at the end of the respective interim periods (and fiscal year-end). The figures only represent calculations of notional amounts for nominal contract values of interest rate cap and interest rate swap transactions or for transaction settlements. There is no transfer of monetary assets in accordance with the stated amounts, and these amounts do not indicate market risk or credit risk related to derivatives transactions.

Notes: 1. Fair value is calculated based on prices presented by financial institutions.

In calculating fair value, the Company forms a contract for calculating fair value with a third-party institution not involved in the derivatives transaction. The price presented by the financial institution with which the derivatives contract has been formed is then checked to verify fairness, after which fair value can be used.

- 2. The amount shown in brackets for the contract amount of interest rate caps is the prepaid cap fees on the consolidated balance sheet (interim period), and the corresponding fair value and valuation loss are shown.
- 3. Derivatives transactions using deferral hedge accounting are excluded.

(5) Risk management system The Company manages market risk in accordance with methods for managing the various risks arising from financial activities as set forth in Guidelines for Managing Risk by Type, which is contained in Financial Regulation. Guidelines for Managing Risk by Type is revised in a timely manner in response to changes in the risk environment, whereupon such revisions shall be reported to the Board of Directors.	(5) <u>Risk management system</u> (No change)	(5) <u>Risk management system</u> (No change)
6. Other Material Items Related to Basis of Presentation of Interim Non-Consolidated Financial Statements (1) Accounting for revenues and expenses Interest on consumer loans Interest on consumer loans is recognized on an accrual basis. For the Company, accrued interest on loans is determined using the lower of the interest rate specified in the Interest Rate Restriction Law or the contracted interest rate.	6. Other Material Items Related to Basis of Presentation of Interim Non-Consolidated Financial Statements (1) Accounting for revenues and expenses Interest on consumer loans (No change)	6. Other Material Items Related to Basis of Presentation of Non-Consolidated Financial Statements (1) Accounting for revenues and expenses Interest on consumer loans (No change)
(2) Accounting for consumption taxes National consumption taxes and regional consumption taxes are accounted for at the Company using the net-of-tax method. However, consumption taxes not subject to fixed asset related exclusion are recorded in Other in Investments and advances on the relevant interim balance sheets and are amortized over five years. The difference of suspense consumption tax paid less suspense consumption tax received is recorded in Other in Current liabilities.	(2) Accounting for consumption taxes (No change)	(2) Accounting for consumption taxes National consumption taxes and regional consumption taxes are accounted for at the Company using the net-of-tax method. However, consumption taxes not subject to fixed asset related exclusion are recorded in Other in Investments and advances on the relevant balance sheets and are amortized over five years.

(4) Changes in Accounting Practices

FY 2004 interim period (Apr.1, 2003—Sept. 30, 2003)	FY 2005 interim period (Apr.1, 2004—Sept. 30, 2004)	FY 2004 (Apr.1, 2003—Mar. 31, 2004)
	(Accounting standards for impairment of fixed assets) Beginning with the interim period under review, the Company has adopted accounting standards for impairment of fixed assets (Opinion on the Establishment of Accounting Standards for Impairment of Fixed Assets (Business Accounting Council, August 9, 2002)) and Guidance on Accounting Standards for Impairment of Fixed Assets (Accounting Standards Board of Japan, Practical Guidance No. 6, October 31, 2003). Application of these standards resulted in a reduction of ¥263 million in income before income taxes compared with the previous accounting practices. The cumulative impairment loss after revision has been directly charged to individual asset accounts in accordance with regulations for presenting the interim non-consolidated financial statements.	

(5) Additional Information

FY 2004 interim period (Apr.1, 2003—Sept. 30, 2003)	FY 2005 interim period (Apr.1, 2004—Sept. 30, 2004)	FY 2004 (Apr.1, 2003—Mar. 31, 2004)
	The Local Taxes Amendment Law (2003 Law No. 9) was promulgated on March 31, 2003, resulting in the introduction of a pro-forma standard taxation system for fiscal years commencing on or after April 1, 2004. In accordance with the introduction of this system, the added value and asset portions of enterprise tax are recorded in Other operating expenses as given in Practical Solution on Presentation for Corporate Size Based Aspect of Corporate Income Tax on Income Statement (Accounting Standards Board of Japan, Practical Guidance No. 12, February 13, 2004) starting with the interim period under review. As a result of these changes, other operating expenses increased ¥391 million, while operating profit, recurring profit, and income before income taxes decreased ¥391 million.

Item ·	Balance at end of interim period
Current portion of long-term debt Long-term debt	54,785 134,077
Total	188,862

In addition to the above, Promise entered into forward contracts of assigning for consumer loans receivable of ¥333,596 million. Corresponding liabilities were long-term debt of ¥319,291 million (including ¥85,347 million current portion of long-term debt) as well as a guaranteed obligation for affiliates of ¥3,300 million.

- 3. Unsecured consumer loans to individual customers, which were included in Consumer loans receivable, were ¥1,369,779 million.
- 4. Revolving credit facility Within lending commitment line contracts for consumer loans, ¥1,375,011 million was in revolving credit facility agreements (automatic renewal through basic revolving loan contract). These are agreements whereby companies can loan repeatedly up to a predetermined amount to a customer on request, if the customer has met the terms and conditions of the contract.

The total balance of revolving credit facilities unused was ¥356,325 million (including ¥275 million in secured revolving credit facilities). This balance includes credit facilities of customers without any loan balance, except for those making no payments or receipt for two years or more.

In addition to the above, Promise entered into forward contracts of assigning for consumer loans receivable of ¥310,602 million. Corresponding liabilities were long-term debt of ¥297,315 million (including ¥84,126 million current portion of long-term debt) as well as a guaranteed obligation for affiliates of ¥2,845 million.

3. Unsecured consumer loans to individual customers, which were included in Consumer loans receivable, were ¥1,347,657 million.

4. Revolving credit facility

Within lending commitment line contracts for consumer loans, ¥1,352,344 million was in revolving credit facility agreements (automatic renewal through basic revolving loan contract). These are agreements whereby companies can loan repeatedly up to a predetermined amount to a customer on request, if the customer has met the terms and conditions of the contract.

The total balance of revolving credit facilities unused was ¥351,936 million (including ¥252 million in secured revolving credit facilities). This balance includes credit facilities of customers without any loan balance, except for those making no payments or receipt for two years or more.

FY 2004 interim period (Sept. 30, 2003)

There are also contracts whose term ends without the lending option being executed, and thus do not necessarily have an impact on future cash flows of the Company.

For changes in the credit status of customers or other credible reasons, each contract contains a provision in which the Company can deny financing for loan applications and upwardly or downwardly revise the maximum credit line.

Even after the completion of contracts, the Company periodically revises contract details and adopts measures to ensure credit safety.

5. Contingent Liabilities

- (1) Guaranteed obligations in the credit guarantee business ¥1,438 million
- (2) Warranty obligations ¥37,652 million

This obligation was entailed in the transfer of the entire amount of stock held by Promise in the subsidiary GC Co., Ltd. to General Electric Capital Consumer Finance Co., Ltd. (currently GE Consumer Finance Co., Ltd.), and represents the remaining balance of obligations that fall under the category of warranty obligations, which are only one portion of Company debt obligations.

	7. During the interim period under review, the following groups of assets of the Company have been charged with impairment losses. Prefecture Use Category Kagawa Idle asset Land Tokyo Idle asset Land Ishikawa Idle asset Land Osaka Idle asset Land Hiroshima Idle asset Land The Company divides its asset groups into the categories of finance and idle assets. Idle assets or which market value has fallen markedly below book value have been adjusted to amounts approaching their potential recovery value. Of that amount, an impairment loss of ¥263 million was booked as an extraordinary loss. The potential recovery values of idle land and company housing have been calculated based on net sales value. Buildings and land values are calculated based on an appraisal done by a real estate appraiser.

Acquisition of Shares of At-Loan Co., Ltd. (Conversion to Subsidiary)

In a meeting of the Board of Directors held today, January 18, 2005, Promise Co., Ltd. (Promise), decided to acquire shares of At-Loan Co., Ltd. (At-Loan), through a third-party allotment, converting the company into a consolidated subsidiary. At-Loan is presently a wholly owned subsidiary of Sumitomo Mitsui Banking Corporation (SMBC). Details are as follows.

1. Reason for share acquisition

On November 12, 2004, Promise and Sumitomo Mitsui Financial Group, Inc. and SMBC agreed in principle to make At-Loan a joint venture for promoting their consumer finance business under their strategic alliance. Based on that agreement, Promise is acquiring shares in At-Loan through a third-party allotment.

2. Outline of Company Being Converted to Subsidiary

(1) Trade name At-Loan Co., Ltd.

(2) Representative President: Masaaki Shimojima

(3) Address 1-1, Nishishinjuku 2-chome, Shinjuku-ku, Tokyo

(4) Establishment June 2000

(5) Principal business activities Consumer finance

(6) Fiscal year end March

(7) Number of employees 182 (including part-time employee)

(8) Main offices Head Office

(9) Paid-in capital JPY 400 million

(10) Number of shares issued Common Stock: 500,000 shares

(11) Principal shareholder and SMBC: 500,000 shares, 100%

ownership of shares outstanding

3. Performance trends in recent fiscal years

(Millions of yen)

	FY2003 (Apr. 1, 2002—Mar.31, 2003)	FY2004 (Apr. 1, 2003—Mar.31, 2004)
Operating income	7,763	15,006
Operating profit	(8,173)	(1,981)

Increase in Year-End Cash Dividend

In a meeting of the Board of Directors held today, January 26, 2005, Promise Co., Ltd. (Promise), decided to propose a 5.00 yen increase in its year cash dividend for the fiscal year ending March 2005 at the 44th annual shareholders' meeting, which the Company plans to hold in June 2005. Details are as follows.

1. Reason for increasing dividend

Based on its capital and business alliances with Sumitomo Mitsui Financial Group, Inc., Promise is in the process of taking advantage of and establishing new sources of income. In recognition of the ongoing support of its shareholders, the Company has decided to increase the year-end cash dividend through a 5.00 yen commemorative cash dividend, raising the total year-end dividend to 55.00 yen.

2. FY2005 cash dividends per share (April 1, 2004—March 31, 2005)

(Yen)

	Interim Period	Year-End	Full Year
Previous estimate (Announced on Oct. 26, 2004)	50.00	50.00	100.00
Current revision	50.00*	55.00	105.00
Previous fiscal year (Year ended Mar. 2004)	50.00	50.00	100.00

^{*} Actual base

Consolidated Financial Results for the Nine-Month Period (3Q) Ended December 31, 2004

Note: Percentages for operating income, operating profit, recurring profit and net income represent percentage changes from the same period of the previous year.

Summary of Consolidated Operating Results

During the third quarter of the fiscal year ending March 2005, there were concerns that the soaring price of oil and the natural disasters that occurred during the period would cause a slowdown in the Japanese economy. In fact, against a backdrop of a stable global economy and growing domestic demand, the Japanese economy generally remained in an expansionary phase. In tandem with this trend, the employment and personal income environments also steadily improved.

In the consumer finance market, although the number of personal bankruptcy petitions has been continued to decline, the market entrances by IT-related companies and the formation of various inter-industry business alliances related to the consumer finance market pointed clearly toward greater market competition in the future.

Under these conditions, consolidated total operating income decreased ¥18,725 million, or 6.3%, from the same period of the previous fiscal year, to ¥278,748 million reflecting a marginal decline in consumer loans outstanding of the Promise Group's core business, consumer finance. On the other hand, intensified emphasis on loan management supported a substantial decline in credit losses. Recurring profit, therefore, rose ¥29,740 million, or 40.6%, compared with the third quarter of the previous fiscal year, to ¥103,029 million. Net income in the third quarter was also up, advancing ¥15,242 million, or 33.3% year on year, to ¥61,012 million.

Consolidated performance in the third quarter was generally in accordance with the Promise Group's business plan. Therefore, the Group has not revised its fiscal year business performance forecasts made in its announcement of interim performance for the fiscal year ending March 2005.

(2) Consolidated Financial Position

	Total assets	Shareholders' equity	Equity ratio	Shareholders' equity per share
ALUEL MA	Millions of yen	Millions of yen	%	Yen

Mar. 31, 2004	1,718,721	636,667	37.0	5,260.21

Consolidated Cash Flows

	Net cash provided by operating activities	Net cash provided by investing activities	Net cash used in financing activities	Cash and cash equivalents at end of the period
	Millions of yen	Millions of yen	Millions of yen	Millions of yen
3Q FY2005	63,213	9,182	(84,594)	90,223
3Q FY2004	49,574	67,248	(119,413)	103,608
Year ended Mar. 31, 2004	93,967	28,956	(127,970)	101,110

Summary of Consolidated Financial Position

The following is a summary of consolidated cash flows for the third quarter under review.

On a consolidated basis, cash and cash equivalents (hereinafter, "cash") decreased ¥10,887 million, or 10.8%, from cash at the beginning of the period, to ¥90,223 million. This amount reflected net cash provided by operating activities of ¥63,213 million, net cash provided by investing activities of ¥9,182 million, and net cash used in financing activities of ¥84,594 million.

(Net cash provided by operating activities)

Net cash provided by operating activities for the third quarter amounted to ¥63,213 million, a rise of ¥13,638 million from the same period of the previous fiscal year. The main factors in this increase were a larger decline in consumer loans receivable and lower income taxes paid compared with the same period in the previous fiscal year.

^{*} Business performance forecasts are made based on the information available at the time of the announcement. Changes in a variety of factors could cause actual performance to differ from those forecasts.

(Net cash provided by investing activities)

Net cash provided by investing activities for the third quarter totaled ¥9,182 million, down ¥58,065 million from the same period of the previous fiscal year. This decline can principally be attributed to the lack of proceeds from sales of investments in subsidiaries compared with the previous year despite an increase in proceeds from sales and redemption of investments in securities. The fall in proceeds from collection of loans receivable also contributed to the decline.

(Net cash used in financing activities)

Net cash used in financing activities for the third quarter was ¥84,594 million, an improvement of ¥34,818 million from the same period of the previous fiscal year. This increase can mainly be attributed to the Company's greater restraint in raising funds through loans or bond issues, instead raising funds through a third-party allotment and the sale of treasury stock to Sumitomo Mitsui Banking Corporation.

(Segment Information)

1. Operations by business segment

3rd quarter of fiscal 2005 (Apr. 1, 2004 — Dec. 31, 2004) and 3rd quarter of fiscal 2004 (Apr. 1, 2003 — Dec. 31, 2003) Because the Company's consumer financing business accounts for more than 90% of total operating income and operating profit, business segment information is omitted.

2. Operations by geographic segment

3rd quarter of fiscal 2005 (Apr. 1, 2004 – Dec. 31, 2004) and 3rd quarter of fiscal 2004 (Apr. 1, 2003 – Dec. 31, 2003) Because Japan accounts for more than 90% of the Company's total operating income, geographic segment information is omitted.

3. Overseas operating income

3rd quarter of fiscal 2005 (Apr. 1, 2004 – Dec. 31, 2004) and 3rd quarter of fiscal 2004 (Apr. 1, 2003 – Dec. 31, 2003) Because overseas operating income accounts for less than 10% of total operating income, overseas operating income information is omitted.
